Why not think outside the square?

Recently we had a visit from Middle Earth. They have some wonderful new samples in exciting new colours that you can't help but be tempted with.

Middle Earth hand glazed "Bits and Pieces" mosaic tiles are an exciting new concept in mosaic tiles. The mosaics are supplied in packs of loose tiles. The tiles are tumbled to smooth the edges before being individually hand-glazed, giving each tile a unique style and colour.

If you are an individual why settle for boring. These tiles will most definitely create that "WOW" factor and a special environment which is unique to each installation. You can mix these exotic colours to create borders with distinction or eye-catching features within plain tiles. For those of you who like a décor with a difference or are into creating, these tiles are the answer. They will inspire the artist in you.

Do pop in. We look forward to seeing you at the Tile Centre; the one stop shop for tiling and home of Southland's largest range of tiles.
